I am Software engineer and Software Architect. I used several programming languages: Python, Rust, Go, C#, Kotlin, Java, Typescript, JS, Lua, Dart. Primary language is Python. I make stateless services via FastAPI framework. Also i use kafka and gRPC.

I make opensource projects.

### Skills

- Python
- Typescript
- Redis
- FastAPI
- Kafka
- Docker
- Sqlalchemy
- Postgresql
- CI/CD
- Rust
- Clickhouse
- Software Architecture

## Experience

2019–2022  
Software Architect  
*Tinkoff.ru*  
Saint Petersburg  
PL: Python  
Protocols: REST, gRPC, Kafka (avro)  
Packages: FastAPI, Flask, Sqlalchemy, Huey, ...

2017–2019  
Python developer  
*USSC.ru*  
Yekaterinburg  
PL: Python  
Protocols: REST, RabbitMQ (json)  
Packages: aiohttp, sqlalchemy, ...

2016–2017  
PHP Developer  
*Bodysite.ru*  
Yekaterinburg  
I made E-commerce plugins

## Education

2013–2017  
**Infocommunication technologies and communication systems (bachelor)**  
*Ural Federal University, Yekaterinburg*

## Projects

*tinkoff-investments*  
[github.com/tinkoff/invest-python](https://github.com/tinkoff/invest-python)

*tinvest*  
[github.com/daxartio/tinvest](https://github.com/daxartio/tinvest)

*sportorg*  
[github.com/sportorg/pysport](https://github.com/sportorg/pysport)

## Conferences (speaker)

2022	PyCon Weekend Russia
2021	PyCon Russia

## Languages

*Russian* (native)  
*English* (fluent)
